

## **Points raised at FF's AGM by I. Seager on 29<sup>th</sup> November 2018**

### **Transparency and inclusivity**

It is good to see FF's web page on the Framsdén web site giving an outline of FF's work, the Chairman's annual report, minutes of FF's AGM, the income and expenditure account for 2017 and comments from a member of the community.

With regards to the income and expenditure sheet (2017) could FF consider adding/providing further details under Income (£367.93), Expenditure – Donations (£535.51) e.g. recipients and Other (£545.00).

Could FF consider adding other minutes of meetings to the web page and circulating agendas in advance? This may encourage further interest, community participation and involvement.

Following Framsdén Parish Council's example, could members of the community be given the opportunity of attending FF meetings, bearing in mind that most of FF's funds are raised from Framsdén's community and with limited exceptions (charitable donations) is used for the benefit of the community?

### **The Village Fete**

Judging by the number of children who attend the Woodland Group's Halloween event, there seems to be no shortage of local children. I was not the only person to notice that there seemed to be less activities available for children at the village fete this year (a comment made to the event organiser by email but not responded to).

### **General**

Congratulation to FF for a very successful 2018 reflecting much time and effort by those concerned.

Ian Seager 29/11/18
