

Village Produce Show 7<sup>th</sup>  
September 2019

Are you ready to make your  
Scarecrow?

Things to think about:

Can be a 'person' or an animal –  
Pinterest gives loads of ideas

Size – can range from 50 cm to 2m

Construction: should be able to stand or sit. Can use  
recycled materials, please ensure that rain doesn't  
mean that they fall to bits! Think about what you stuff  
your scarecrow with – if it is too heavy it will be hard to  
stand up.

Straw will be available, details to follow.
